

LANGUAGE LEARNING STRATEGIES

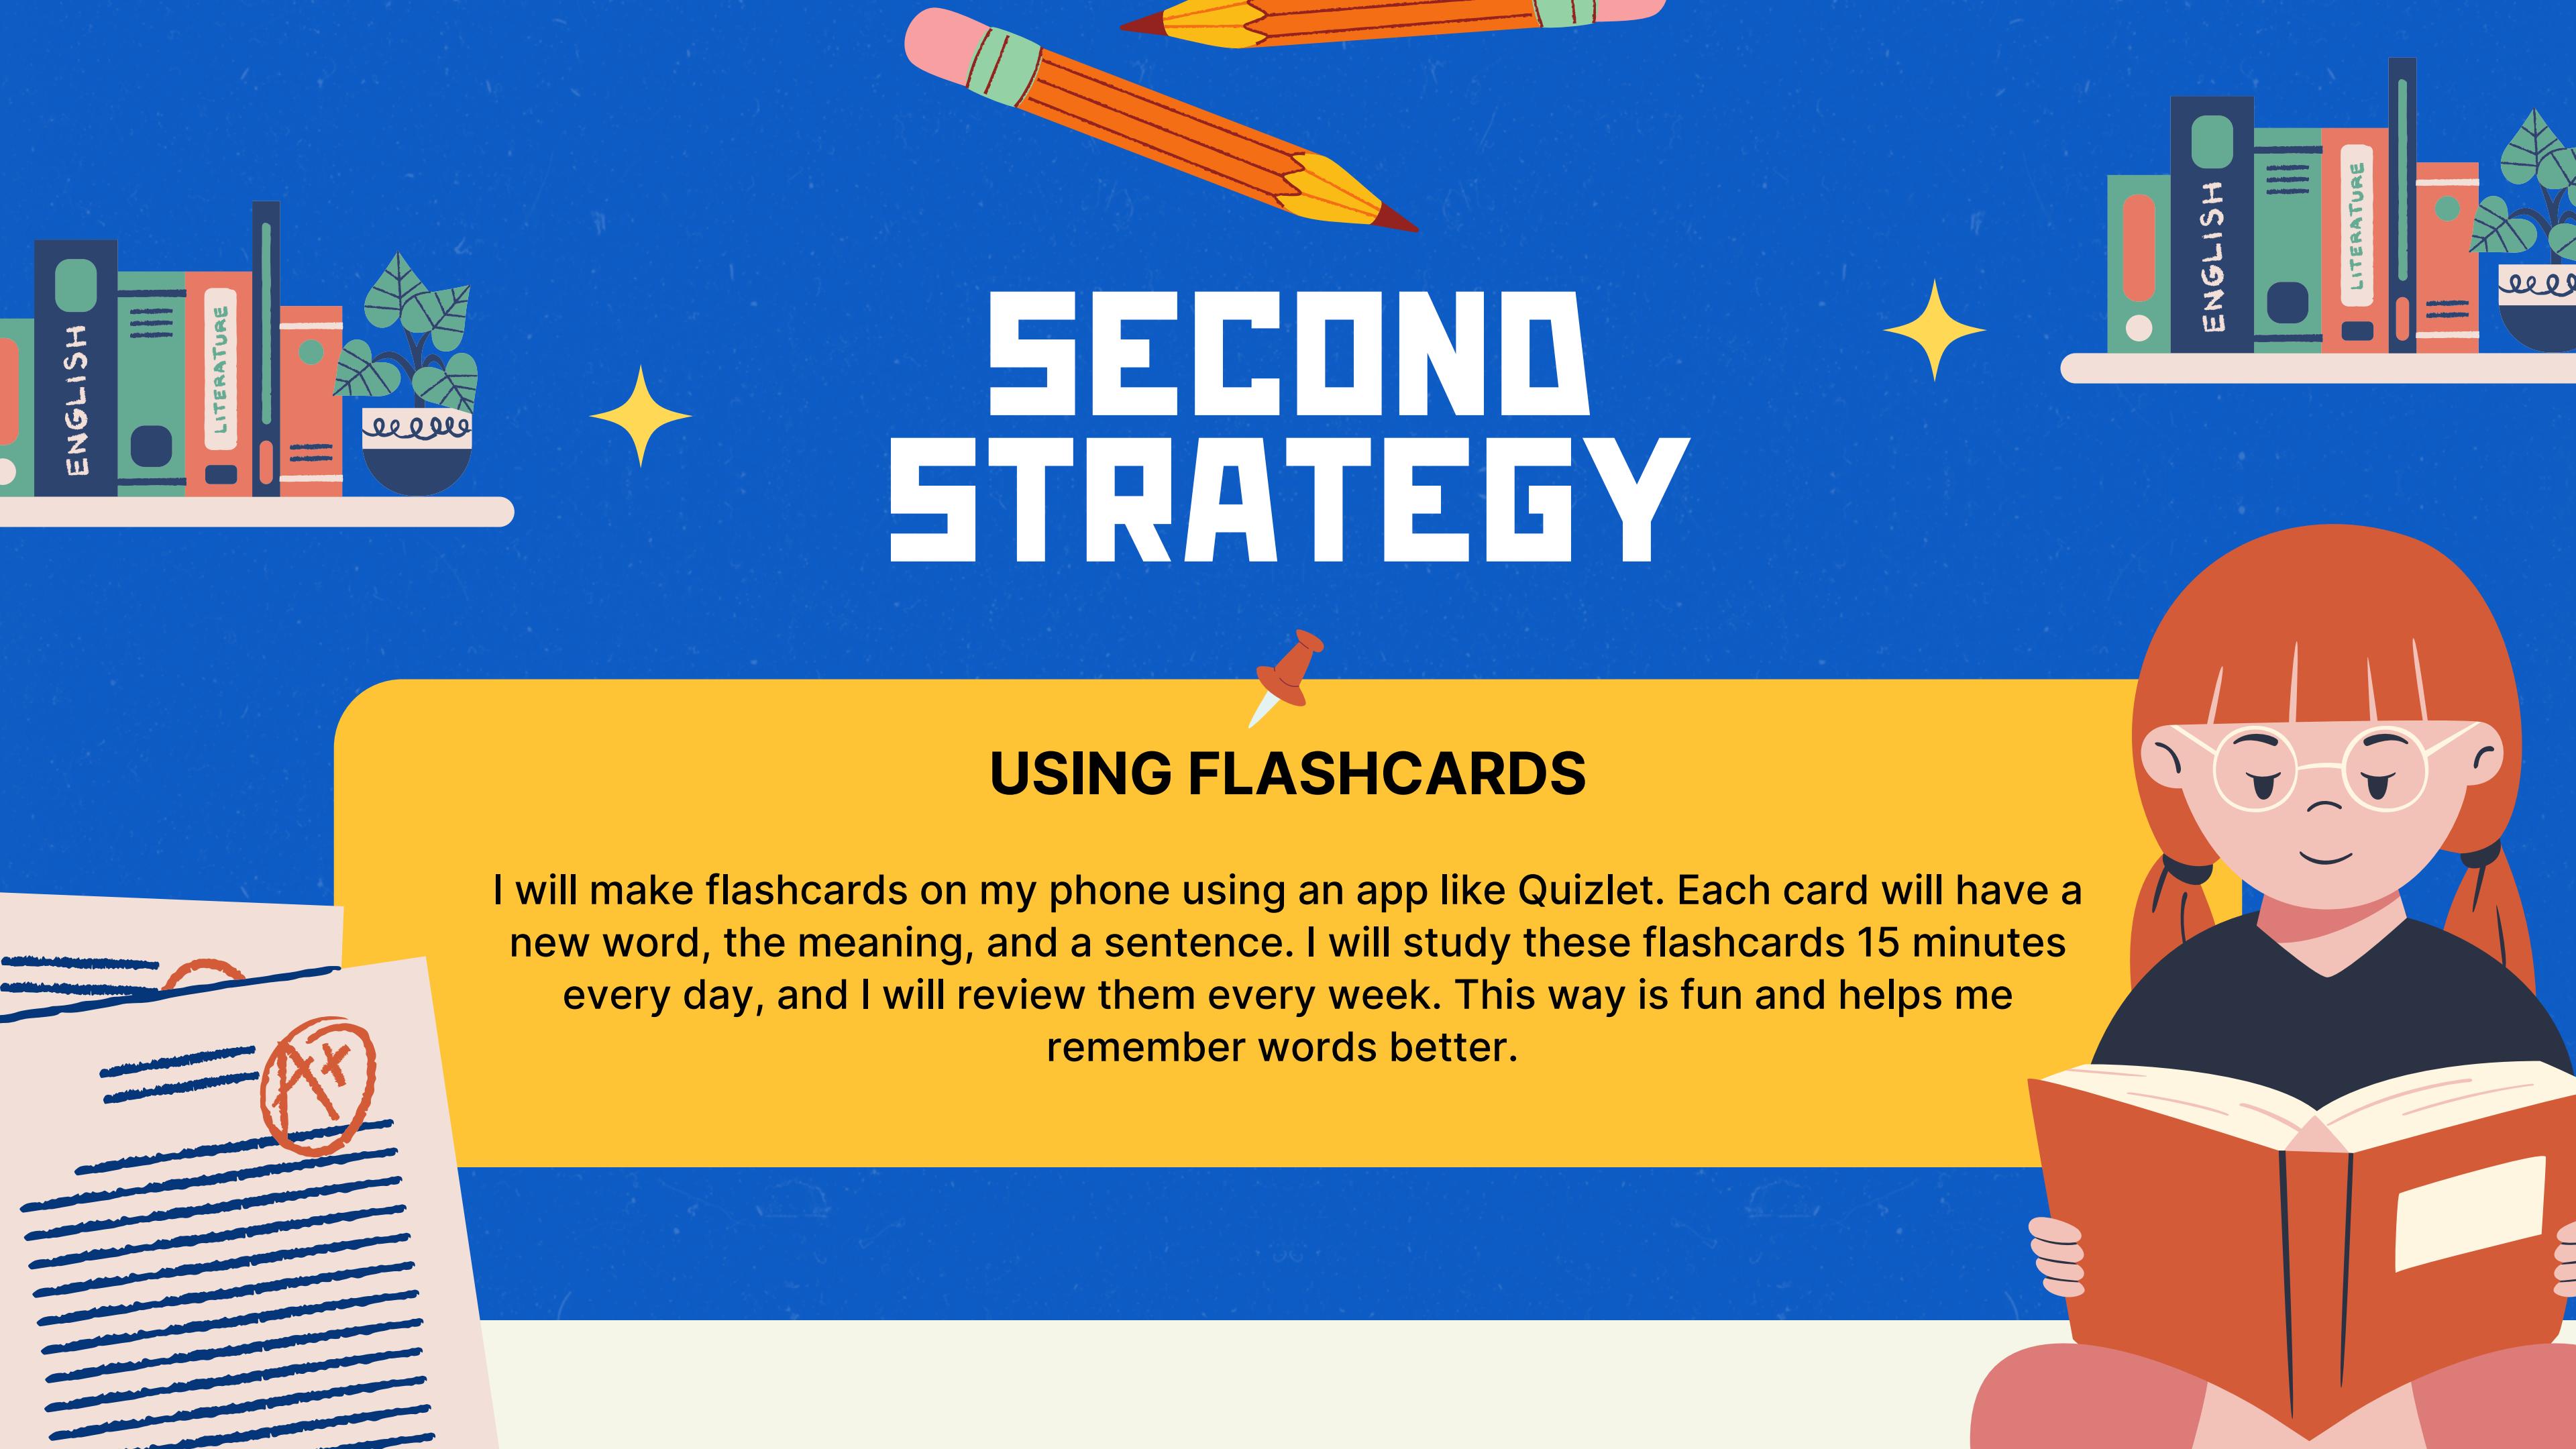

Presentation By
Jose Manuel Bustamante Monsalve

FIRST STRATEGY

WATCHING MOVIES AND SERIES

This helps me understand how people really speak. I can hear how they say words and learn new ones. I will watch three episodes each week and one movie on the weekend. At the beginning, I will use English subtitles to help me understand. Later, I will try to watch without subtitles. When I hear new words or phrases, I will write them down and learn what they mean.

SECOND STRATEGY

USING FLASHCARDS

I will make flashcards on my phone using an app like Quizlet. Each card will have a new word, the meaning, and a sentence. I will study these flashcards 15 minutes every day, and I will review them every week. This way is fun and helps me remember words better.

WHAT I WILL USE:

Quizlet

**NETFLIX OR YOUTUBE
FOR MOVIES AND SHOWS**

**QUIZLET APP
FOR FLASHCARDS**

**A NOTEBOOK (DIGITAL OR
PAPER) TO WRITE WHAT I
LEARN**

HOW I WILL CHECK MY PROGRESS:

Each week, I will write or speak a short summary of what I watched. I will try to use new words from my flashcards. I will also check if I can understand more without subtitles.

IN CONCLUSION

THESE TWO STRATEGIES ARE EASY TO DO EVERY DAY AND MAKE LEARNING FUN. I BELIEVE THAT IF I KEEP GOING, I WILL SPEAK AND UNDERSTAND ENGLISH MUCH BETTER.
